

**City of Manchester, New Hampshire
Board of Fire Commissioners**

Minutes of the Regular Monthly Meeting

Date: Tuesday, November 12, 2013

Location: Central Fire Station-100 Merrimack Street

Board Members Present: Commissioners Paul Harrington, Anthony Puzzo, Verna Perry and Timothy DiVenuti. The meeting was called to order at 8:10 am.

Present: Chief Burkush, Deputy Chiefs Campasano and Goonan, District Chief O'Reilly, Jody Rivard and Linda Miccio.

A moment of silence was observed.

Minutes of the Previous Meeting:

Motion to accept minutes - DiVenuti/Perry

Correspondence:

Division Reports:

Chief Burkush reported on the following:

- Immediately following the Commission meeting, City Departments are meeting with the Mayor to discuss the FY 2015 budget process.
- Susan Wheeler, Accounting Specialist will retire on December 1, 2013.
- Donald Rippy, Information Support Specialist will retire on January 1, 2014.
- The new Engine 3 pumper will be in service before Christmas.
- FY 2014 budget has a projected \$200,000.00 shortfall.
- Discussion about "old" police station-alarm circuits rerouted, fiber optic removal in the spring, antenna to be tied off from PD to FD.
- Discussion about combining Station 9 and Station 3 and located land for the new station.

Training Division Report:

See attached report.

Deputy Chief Goonan reported on the following:

- Active grievances involving personnel issues.
- Currently there are nine long-term injuries.
- Discussion of hostile patients at med calls, which will be discussed at the Ambulance Over-Sight Committee.

Fire Prevention Bureau Report:

See attached report.

Communications Report

See attached report

Old Business:

None to discuss.

New Business:

- Discussion regarding a new Commissioner to replace Colin Manning.

Next meeting scheduled for December 10, 2013 8:30 am

Executive Session: Not necessary

Adjournment: 8:48 am on a motion by Puzzo/Perry

Transcribed by Linda Miccio

Respectfully submitted,

Verna Perry, Commissioner

Report from the Fire Prevention Bureau
Fire Commission Meeting
Tuesday November 12, 2013

Recreational Fire Permit Site Inspections: The 2013 report is for inspections from November 1, 2012 to October 31, 2013 effective calendar year ending December 31, 2013. The 68 inspection addresses include preliminary site inspections before final approval of the site. Construction projects for site preparation can be extensive. Property owners usually dig out the sod, dirt, whatever, down about 3 inches to accept the 8 foot square non-combustible surface where the appliance will reside. Some of the more ornate installations may include flag stone, brick or other materials filled in with sand or fine gravel. The big fire place with chimney we would refer to the Planning & Community Development Office where they can determine if this project should be classified as a landscape feature or something structural requiring a building permit.

Certificate of Occupancy Inspections: Query of 'Fire House' activity effectively sorts the inspection module to Certificate of Occupancy. We have over 200 records of occupancy visits and inspections as of the date of this report. A request for inspection is made to the business/property owner inspired by the permitting agency where a call from that owner to our office for scheduling is then made. Most inspections are not that difficult. The most basic life safety items are checked for compliance, approved illuminated exit signage, emergency egress lamps, fire extinguisher(s), suppression systems tagged current, etc.; We go through the place as existing unless it is a new occupancy or a change in use, now treated as a new. The code has provision for new and existing.

Life Safety Inspections: The broad term, life safety inspections, include community residences for the developmentally disabled, State Foster Care, Family or Day care Centers and others as appropriate classification. Agencies such as Life Share or Moore Center Services require Fire Department inspection for life safety compliance before placement is made to the residential unit. This is not an enforcement action as non-compliant properties we would not sign off on, however, in the case of commercial Day Care Centers, we will enforce by City ordinance (ticket) or State citation.

Respectfully
Edward O'Reilly
Chief of Fire Prevention
Manchester NH

DIVISION REPORT

DEPUTY CHIEF CAMPASANO

NOVEMBER 12, 2013

TRAINING DIVISION

EMPLOYEE SELF-DEVELOPMENT

Department personnel participated in the following training programs offered through the Training Division:

- 2013 EMT Refresher – Mod 5 1 classes 6 attendees 24 contact hours
- 2013 EMT Refresher – Mod 6 8 classes 180 attendees 720 contact hours.

IN-HOUSE COMPANY TRAINING PROGRAM

Companies continue to formally document their company level in-house training. **September** training hours for each company:

- Station 2 23.50 hours
- Station 3 28.00 hours
- Station 4 05.00 hours
- Station 5 16.50 hours
- Station 6 30.50 hours
- Station 7 09.50 hours
- Station 8 12.00 hours
- Station 9 30.50 hours
- Station 10 15.00 hours
- Engine 11 05.00 hours
- Truck 1 23.50 hours
- Rescue 1 00.00 hours

The average training hours per company for the month of **September** were **16.58** hours. The average training hours per company for the month of September were 17.75 hours.

HOMELAND SECURITY

A Zetron representative will be in Manchester November 12th through the 14th to assist and train the Communication Division, along with members of the information systems department in configuration of the new station alerting system. Once completed, the final installation will be performed by city personnel.

After review of the three sealed bids received for command vehicle, which were opened on October 4th, a recommendation was made to the Chief of the Department to award the bid to Accelerated Media Technologies. The next step, following the awarding of the contract, will be sitting down with AMT's engineers and finalizing the detailed engineered drawings. The vehicle is scheduled to be completed and delivered in late May 2014.

Work continues on the east and west-side fiber optic projects. A second environmental amendment to the east-side project was sought and received from the EPA, as there was a question on the integrity of the existing utility conduit, which if crushed, would require an excavated conduit run. The vendor, Henkels and McCoy, will begin the fiber work on November 12th. The west-side fiber project is proceeding without problem.

EMERGENCY MANAGEMENT OPERATIONS

LOCAL EMERGENCY PLANNING COMMITTEE

The LEPC met on October 24th. The agenda for that meeting, as well as, the minutes of meeting are attached to this report. The committee discussed RCRA contingency planning and continued outreach to city businesses.

SOUTHERN NEW HAMPSHIRE REGION COMMUNITY PREPAREDNESS PROGRAM

The SNHRCPP committee will be meeting on November 18th. The agenda for that meeting is attached to this report. A problem was identified in the LED message boards. The manufacturer diagnosed it as a loose circuit board chip. They arranged to have all of the signs shipped back to their facility for repair. It is anticipated that this fix will clear up the problems the department has experienced with the operation of the signs.

EMERGENCY MEDICAL SERVICES

The department has completing the 2013 EMT refresher training program and all make-up classes. A paramedic and EMT-Intermediate refresher training program was held during the week of October 21st. An Advanced-EMT transition program is scheduled to be held in December. An Advanced EMT refresher program, as well as, a full A-EMT program is scheduled to be held in January, 2014.

AMBULANCE CONTRACT

The department continues to meet with AMR and the medical resource hospitals for monthly quality review meetings. The next meeting is scheduled for November 14th. The committee will begin reviewing response data utilizing the 2014 contract terms in an attempt to identify any data shortcomings and limitations.

**City of Manchester Local Emergency Planning Committee
Meeting Minutes
September 26, 2013, 3:00 PM
Manchester Fire Department
Manchester, NH 03101**

Manchester Local Emergency Planning Committee (MLEPC) members present:

- | | |
|---|---|
| ○ Nick Campasano – MFD | ○ Todd Dresser – Loureiro |
| ○ Shawn Bolduc – Dartmouth
Hitchcock | ○ Engineering Associates |
| ○ Richard Plourde - PSNH
Environmental Coordinator | ○ Jennifer Grawin – Aggregate
Industries |
| | ○ Jillian Harris – SNHPC |

I. Approval of the Minutes from the September 26, 2013 meeting

Motion to accept the minutes of the September 26, 2013 MLEPC Meeting made by Mr. Plourde, seconded by Mr. Bolduc, motion approved with Mr. Dresser abstaining.

II. Emergency Response Assistance – RCRA Contingency Plans

Mr. Campasano discussed RCRA Contingency Plans and the Manchester Fire Department's emergency response procedures with the committee. A request was received from a facility in the City for the Fire Department to return an agreement for emergency response assistance and Mr. Campasano would like to discuss the possibility of the LEPC drafting a response letter. He would also like to see if the committee would like to invite the facility contact to come to an LEPC meeting where they would offer guidance. Mr. Dresser stated the different facilities have different expectations. Mr. Campasano stated that the reality of the situation is that the Fire Department will come in and stabilize the situation but it is up to the facility to contact a third party to take care of clean-up.

Mr. Campasano would like to consider the possibility of the LEPC performing reviews of contingency plans to be sure they are comprehensive and complete. A training session could be offered to walk facility managers through the process.

The committee agrees that facilities need to be in contact with a company that will be involved in clean-up before an incident happens so they know who to contact in an emergency.

III. Outreach Coordination

Ms. Harris reviewed the outreach letter that had been drafted with input from the committee at the last meeting. A letter will be sent to both tier II reporters and to general industry/business to increase participation on the LEPC. NH DES one-stop data is passed out to committee members who will help to develop the contact list for outreach.

Mr. Dresser discusses that requirement for facilities to participate in the LEPC and that "cooperation and coordination" is the first choice for a strategy. The LEPC should draft a news article which cites the participation requirement and that if needed EPA/Len Wallace will be notified if needed and action may be taken.

City of Manchester Local Emergency Planning Committee
Meeting Minutes
September 26, 2013, 3:00 PM
Manchester Fire Department
Manchester, NH 03101

The Merrimack Valley LEPC in Massachusetts is a good resource for strategies that can be used to increase participation. They hold quarterly meetings and attendance is usually around 40-50 people.

Mr. Dresser discusses the letters to general industry/business and that they need to answer the question, "why should I participate?" These letters should emphasize the emergency planning aspect and that the LEPC and facilities can work together to prevent, manage and respond to emergencies involving hazardous materials.

The committee agrees that the letters to Tier II reporters should remind facility contacts of their requirement to participate.

Ms. Grawin discusses the fact that the Tier II requirements are changing and that this is a good time to do outreach to help facilities understand those changes. Committee members agree that the outreach news article that is developed should include Tier II reporting thresholds, training dates that are coming up, LEPC meeting dates and a discussion about pre-planning and the importance of emergency planning to save lives and businesses. A recent incident can be cited to stress the importance.

Community groups and the media should be included in the outreach effort. Groups to reach out to should include the Greater Manchester Chamber of Commerce, the OSHA roundtable events, the NH High Tech Council, and EPA trainings. LEPC members should inquire with facility managers if there are other groups that should be included. Media contacts should include WMUR, the Union Leader, GIR/Radio, and MPTV.

IV. Next Steps, New Business and Events

Outreach tasks for the next meeting include:

- **Contact Len Wallace for EPA training dates** – Nick Campasano
- **Finalize outreach letters** – Nick Campasano and Jillian Harris
- **Finalize contact list for outreach** – Nick Campasano, Jillian Harris, Richard Plourde, Bob Goldthwaite
- **Print, stuff and mail outreach letters** – Nick Campasano, Jillian Harris, Shawn Bolduc
- LEPC members should start planning and coordination for the Annual Meeting in February, which will consist of a 2 hour workshop focused on "EHS 101" or the top 25 common violations/hazards encountered and how to make sure facilities are addressing them correctly.

V. Conclusion

Next meeting - November 21, 2013, 3:00 pm

VI. Meeting Adjourned at 4:30 PM

Southern New Hampshire Region Community Preparedness Program

Manchester, NH 03102

September, 27, 2013

Chief James A. Burkush
Manchester Fire Department
100 Merrimack Street
Manchester, NH 03101

Dear Chief Burkush,

After 21+ years employed at the Manchester Fire Department, I wish to retire as of December 1, 2013. My last day of work will be Friday, November 29, 2013. To assist with the transition and train a new employee, I would like to extend my offer to work part-time through December and January.

It has been a pleasure working for this fine organization...one I am so proud of. I will miss the daily interaction with my friends here, especially you, Danny, Linda and Michelle. As for me, we have become family. I have gotten through some tough times, because of all of you. Thank you!

With sincere gratitude,

A handwritten signature in cursive script that reads "Susan Wheeler".

Susan M. Wheeler

Chief:

The Merrimack Fire Department would like to extend our sincere appreciation to Manchester Fire Department for your assistance at our October 4th Second Alarm Fire.

It is gratifying knowing that highly trained professionals, such as yourselves are available to assist us during those times of need.

This also exemplifies the cooperation that the Fire Service has within our surrounding communities.

If there is any assistance our department or I can provide please feel free to call.

Again Thank you,

Fire Chief Michael Currier

A handwritten signature in black ink, appearing to read "M. Currier", with a long horizontal line extending to the right.

Londonderry, New Hampshire 03053

Brothers and Sisters,

This past Sunday was the last Honor Flight Send-off for the 2013 season. I want to thank all who made the small sacrifice to come out and send our WWII heroes, members of The Greatest Generation, off right!

We have done this 3 times now for our veterans and after each one, I get a call from Joe Byron (Founder of HFNE) who tells me that the send-off was the biggest, most well-attended one to date! This past Sunday was no different. Thank you for making this special for our heroes. They will never forget it and it means the world to them!

Honor Flight is not about me or you. It is not about status. There is absolutely no political game attached to it and nobody makes a profit off of it. Honor Flight is ALL about those men and women who sacrificed everything to ensure our way of life continues in the land of the free.

We were able to get permission from the FAA to hang an American flag off of the Control Tower this time. There was 100% buy in and I would like to personally thank Bill Gates for making that request a reality for our vets. There is a photo floating around somewhere of the Tower at night, full moon in the background with the flag illuminated by the lights on the tower. Awe-inspiring for sure.

As always, I would like to thank the Manchester Fire Department. Specifically- DC Gamache, Captain Soderberg, Lieutenant Lemay and their companies. Without their support, dedication and continued commitment to this great cause, these sendoffs would not be what they are. Thank you!

Also to be thanked is the Bedford Fire Department. It was their flag that was hanging from the FAA Control Tower which put this send-off over the top. Thank you Dep. Chief Klose and your contingent for everything!

Thank you to all. You will be hearing from me in the spring when the season starts up again. Until then, when you see a WWII Vet, Korean Vet or Vietnam Vet, say 'Thank You' and 'Welcome Home'. I'll guarantee it makes their day.

All for the right reasons.

Forever Grateful!

Respectfully Yours,

Bo Butler
President-Local 3160
